

# THE EMPRESS EXPRESS

VOLUME XII. No. 46

EMPRESS, ALTA. THURSDAY, April 9, 1925

Price: \$2.00 Per Year

## Clean-Up Time

Clean-up time is with us once more. It is unnecessary to emphasize what is expected of our citizens. It falls upon us each individually to do our share in helping to give our town as pleasing an appearance as possible. Let us be as forward in this respect as we have been in previous years. Clean-up. Paint up!

## CARD OF THANKS

I wish, in this manner, to convey my sincere thanks to the citizens of Empress and also to the officers of the Anglican Church for their help and many kindnesses during the long sickness of my daughter, Fanny, from which I am now thankful to say she is convalescent.—Mrs. John Fasic.

## UNION CHURCH

### EASTER SERVICE

Special program in the Sunday School at 2 p.m. Parents and friends urged to join with the school in Easter worship. 11 Public worship, 7:30.

'The Resurrection and Immortality. The glorious discovery of Christianity.'

Special music—

'Prelude and Toccata'—V. Lashner.

Solo, 'The Better Land,' Mrs. J. McNeill.

Anthem: 'Prepare Ye the Way of the Lord.'

Violin solo: Selected, J. McNeill.

Vocal Duet, 'Beautiful Easter Morn,' Mesdames McEune and McNeill.

Solo, 'Calvary,' Miss Opal Boyd.

Offertory, 'Transmuted,' N. W. Whitmore.

Pastor

Divine Worship

Divine worship will be conducted by Rev. N. W. Whitmore, of Empress, on Easter Sunday, at Buffalo, 11 a.m., and Beautyland, 3 p.m. Every-body invited. All will be made welcome.

Funeral of Late Mrs. Alice Jane Demorest

The body of Mrs. Alice Jane Demorest, former old-time resident of Winnipeg, Manitoba, was brought to Winnipeg for burial from Montreal, where she died Sunday, at the home of her daughter, Mrs. E. J. Hungerford. The funeral was held Wednesday, April 1, to the family plot in Elmwood cemetery.—Ex.

## Notice

Owing to complaints of damage done by stock running at large in the Village of Empress, horses or cattle must be tethered or kept in corral while in the Village, or action for damages will be instituted.

D. McEachern, Sec. Treas.

## Notice

Owners and occupants are advised that it is necessary to have all ashes and litter put in bins, and all cars in boxes in readiness for spring clean-up.

D. McEachern, Sec. Treas.

## Golf Meeting

The annual meeting of the Empress Golf Club, was held in the Hotel, Wednesday evening, April 1, 1925. The meeting opened at 8:30 p.m., with President Crobie in the chair.

The minutes of the annual meeting of April 3, 1924, were read and adopted as read. The financial statement for the year was read and adopted as read.

The following were the officers elected:

President: C. N. Pingle.

President: H. L. Arthur.

Vice-Pres: E. L. Kenny.

Secretary: Treasurer: G. M. Johnston.

It was moved that the above officers should also act as Executive Committee, and have charge of all matters connected with the Club.

D. McEachern was elected to act as handicapper.

It was moved that the membership fee this year be \$5.00; students, \$3.00; ladies free.

It was resolved that the tournament date be fixed by the executive committee.

## Home Talent Play

The Empress Players present "Adam and Eve," April 15th. Empress Orchestra will furnish snappy music.

## Trees

The Village Council will supply Four Trees, free, to any ratepayer or household making application to the Sec. Treas.

## Crew At Work on Bridge

Jim Farquharson was in town Wednesday, inspecting the bridge. A crew of men are at work doing necessary repairs.

Beverage Peddler in Cairo

Beverage Peddler in the Cairo Bazaar photographed on Canadian Pacific S.S. Empress of France during her world tour which concludes May 2 and then goes on the "Round America" trip via San Francisco, Balboa, Colon, Havana to New York which is reached May 23. A number of Canadians will take the latter part of the trip.

## Annual Meeting of Board of Trade

Annual Meeting of Board of Trade held in the Empress Hotel, April 3, fourteen members present with Vice-President Brodie in the chair.

Minutes of previous meetings were read and approved.

The Secretary's report on financial statement was adopted as read.

The election of officers for 1925 was proceeded with, and the following officers elected:

H. L. Kenny, Pres.; W. R. Brodie, Vice-Pres.; M. A. Blodgett, Sec. Treas.; Consultants: H. L. Arthur, N. D. Storey, J. N. Anderson, G. M. Johnston, D. McEachern, F. H. Scott.

Correspondence read for information of members on following subjects: Half-holiday, C.P.R. fare via Irricana, Empress-Barrail time card entry.

Ferry approach improvement, Road work on Ferry Hill road.

It was moved that the Village Council be memorialized to accept half-holiday dates as effective from the 3rd Wednesday in May to the second Wednesday in August.

C. H. P. Killick read a paper and gave a short talk re development of dairying.

Matter of Trail Blazing was discussed and it was decided to consider matter at Executive Meeting of April 8.

It is understood that the Alberta Govt. will help deservng cases of farmers needing seed grain.

There has been considerable comment re local prices for Seed Grain. We understand a more equitable price is now probable.

## The Hope of Humanity

Immortality is the strongest hope of humanity. Belief in the persistence of personality after death is common and widespread. Some hope for a achievement of virtue in human character, others may hope for the solution of the problems of sorrow and suffering, still others hope for a sinless world.

Many are the hopes of humanity—one alone is universal, and that is the hope for a deathless life. The saint would naturally long for a continuation of his godly existence. But even the vilest, holding his own evil in contempt, in better moments awakens to a sense of eternal possibilities.

To-day, so acceptable and pleasing is this hope, that we even hardly admit, nor realize, that only since the Christian era, has it become a faith with foundations, as well as an indefeasible condition of fitness in answer to human longings.

Immortality is not found in any other world religion, at all comparable in richness and content to Christianity's claim. Nor must we refuse to admit that pictures of the world in the Hebrew religion of the Old Testament are dismal and unsatisfying, with certain notable exceptions such as are mentioned in the translation of Enoch and Elijah.

We stand in debt to Jesus Christ—not only for the method of life and for the ideal of a truly sacrificial death but also for the assurance of better things to come. Where can we find other such utterances, as "Because I live, ye shall live also." "Let not your heart be troubled. In my Father's house are many mansions, I go to prepare a place for you." "All power is given unto me—Go ye, and I shall be with you always even unto the end of the world."

Let us thank God for the Christian Easter tide—for the Resurrection of Jesus—for the radiating hope of immortal life—and let us do this, not alone because such aspirations tend to ennoble life, but that we may gratefully pay our homage to Jesus, and honor God and men through Him. We are citizens of two worlds, and our citizenship here should be so accepted and discharged as to merit the responsibility of a larger heritage for eternity.

Miss Agnes Laroque, of Cavendish, was admitted to the hospital on April 4th.

## Improving Poultry

For the purpose of improving the class of Poultry in the District at a nominal cost, the Division of Illustration Stations are supplying high-class cockerels to the operators of local stations having pure bred flocks of good laying strains giving easy access to the securing of eggs for hatching and also young cockerels.

These flock headers are of matings that lay 200 eggs or better during the year.—John Barnes, station operator, Blind-bay.

Order your Counter Check Books now, through the "Express," prices are due to advance.

## Notice

Notice is hereby given that the Early Closing Bylaw of the Village of Empress relating to Wednesday Half-Holidays, will be enforced from the second Wednesday in May to the second Wednesday in August.

D. McEachern, Sec. Treas.

## Germany May Now Enter League Of Nations On A Basis of Equality

Geneva.—Germany may enter the League of Nations on a basis of absolute equality with the other members, but without any special favors.

This was the formal decision of the League of Nations council on Saturday, in adopting the text of a resolution to be sent to Germany concerning the latter's entrance into the league; decided on at principle March 16.

Paris.—A Havas Agency dispatch from Geneva says: "The league council is in a position to state that the German representatives, on the 'Sarre and Danzig' questions, who are attending the council session here, have made it known to Germany that it would be to Germany's interest not to defer longer her entrance into the League of Nations."

## Uster Not Likely To Join Free State

Question Will Be Decided At Election In April

London.—With the dissolution of the Upper Parliament, and an election campaign previous to polling, which will be on April 3, the people of Ulster are preparing to give an answer to the question which Premier Craig has put squarely before them: Is it wiser whether they are still answering to the determination to remain as they are and not become a part of the Irish Free State or whether they will join forces with their southern brothers. They will also be asked to say what they think of the present boundary commission, which is now investigating the border problem.

There is little doubt that Ulster will reply that for the present she wants the existing status to be continued.

## Sask. University Blaze

Fire Destroys Engineering Building Resulting In Heavy Loss

Saskatoon.—Fire, which broke out Friday morning in the tractor laboratory of the Engineering Building at the University of Saskatchewan, left the entire structure, the largest of the university group, a shattered ruin by 6:30. The loss, unofficially estimated at \$300,000, will probably approximate half a million dollars when a complete inventory of the building and contents is made.

Every fire brigade in the city answered the general alarm, but due to an insufficient water pressure, the firemen could play only a pitifully weak stream on the framework structure, while the fire pumped rapidly from the west wing to the centre tower and into the eastern section of the building.

To Attract Tourists

Ottawa.—Extensive advertising lists followed by legislation, should be practiced by Canada to draw tourists and residents of the United States to its unsurpassed beauty spots. In the opinion of Dr. P. E. Baillie, president of the Canadian Automobile Association, who gave a lecture here on a recent trip across Canada by automobile.

Shut Out Japanese

Tokyo, Kai.—The Japanese Senate has passed a Japanese Exclusion Bill which prohibits persons from that country owning or holding lands in this state. The bill now goes to the governor.

## Would Legislate To Have No Appeals From The Supreme Court

Ottawa.—Legislation to abolish appeals from the judgments of the Supreme Court of Canada, is sought in the House of Commons.

## Appetite Keen And Bowels Relieved

You can rely your meals without fear of upsetting your liver or stomach. If you put your faith in Carter's Little Liver Pills, you will find that the blood is expelled from the bowels and head, and the system is relieved.

Small Pill—Small Dose—Small Price.

## Alberta Legislature Endorses Senate Reform

Edmonton.—The legislature endorsed a resolution by W. H. Davidson, independent member for Calgary, urging senate reform and also supporting the suggestion made in the speech from the throne in the Parliament of Canada, providing that this body be empowered to amend the British North America Act. There was no active opposition to the resolution. All speakers agreed that some form of senate reform was necessary. Some even went so far as to advocate abolition of the senate entirely, while others suggested a limitation of powers.

## Plan Is Not Favored

Scheme to Settle Retired Professional People in Dominion Is Frowned On

London.—It is doubtful whether the scheme to settle retired professional people possessing fixed but comparatively small incomes, in the different provinces of the Dominion, as proposed by Sir Roland Bourne and others, will be seriously considered.

It is suggested that 50 to 100 of these retired professionals, with small incomes, with a clubhouse for meals, etc.

Many critics suggest that it would be pretty "good" to expect the overseas settlement committee to provide financial assistance for helping those who have made their life's income from the British government to spend their retiring allowances outside the country.

## Beet Growers Organize In Southern Alberta

Propose Bringing In Russian German Families To Work In Fields

Lethbridge, Alta.—One hundred beet growers of Southern Alberta have organized the Southern Alberta Beet Growers' Association. Representatives of all irrigation districts were present at the meeting with T. George Wood, manager of the Utah-Idaho Sugar Company, and means of financing and finding labor to handle 6,000 acres of beets this year were considered. An effort will be made to bring in Russian-German families for work in the beet fields, and a representative of the C.P.R. was present to offer co-operation in this regard. Sugar labor is also being considered. Expanding the growth of the crop is now being discussed with the Bankers' Association.

## Civil Service

Ottawa.—During the year 1922, the civil service commission appointed 1,771 civil servants to fill vacancies caused by death, resignations, or otherwise, and inclusive of 251 additional appointments. It was stated in the House of Commons in answer to a question.

## Germany Is Disarmed

Retiring U.S. Ambassador to Germany Denies Reports Circulated to That Effect

New York.—Alonso B. Houghton, retiring United States ambassador to Germany, and the new ambassador to Great Britain, who arrived on the Aquitania, emphatically denied to interviewers that nations were being stored in large quantities in Germany. "Here or there," he said, "may be found some crazy man, or a few radicals, who may have stored a hundred or more guns, but I can say Germany is disarmed."

## France Requires Foreign Loan

Only Way Treasury Can Pay Obligations Promptly

Paris.—A foreign loan of four or five billion of francs to enable the treasury to pay its obligations promptly is France's fundamental need in the present and approaching financial crisis, says Louis Loucheur, in a long interview published by Le Journal. The paper had appealed to him, as an outstanding expert in financial matters, to suggest a way out for the country facing the maturity of 25,000,000,000 francs worth of securities this year.

## French To Explore Arctic

Norwegian Will Conduct Expedition to Franz Joseph Land

## Was Choice of Convention

For third successive year chosen to head Canadian Council of Agriculture. He is also president of the U.P.O.

W. A. AMOS  
For third successive year chosen to head Canadian Council of Agriculture. He is also president of the U.P.O.

## Alberta Deficit

Will Conserve and Develop Natural Resources in the Interests of the People

Edmonton.—In his annual budget speech in the Alberta Legislature, Hon. R. G. Reid, provincial treasurer, revealed a deficit of \$36,622.51 on general income account for the year 1922. The deficit last year was \$529,314.22.

Hon. Mr. Reid announced the intention of the government to re-act, in a different form, the Miner Alibi (tax) which was disallowed by the Dominion Government last year, but no item is included in the estimated revenue for this tax.

"We are confident," said Mr. Reid, "that the natural resources can be more economically administered by the province than by the Dominion authorities. It will be our duty to see that these resources are conserved and developed in the interests of the people."

Features of the budget speech are: Estimated increase in revenue for 1923, \$775,267.46.

Estimated increase in expenditure and controllable expenditures between 1921 and 1922, \$1,171,861.34. No new tax methods suggested.

## Manitoba Drug Addicts

Seventy Known Cases In Province Is Reported In House

Winnipeg.—The 79 known drug addicts in Manitoba, according to a return tabled in the Provincial Legislature by Hon. D. L. McLeod, minister of health.

Estimates ranging from 400 to 500, including Chinese, the return states, are merely conjectures, and complete a large percentage of persons known in police circles as "fioters."

The report suggests control is a question of public safety. It declares efforts toward suppression of the traffic in narcotic drugs are more likely to produce healthy results.

## Game Law Conference

Aim Is To Protect Game On Border

Winnipeg.—Alberta has endorsed the proposed conference of game law officers of the Canadian provinces, and is adding states, J. H. Evans, deputy minister of agriculture, announced.

Manitoba proposed the meeting, and Winnipeg has already endorsed it. Ontario has been asked to support the scheme. It is sought to provide adequate means for mutual protection and control of game on inter-provincial and international border lands and to breakers of law seeking income through these borders.

## Dog Saves Woman From Drowning

Howling Attracted Attention of Sculler Who Came to Rescue

Toronto.—To the howling of her ailing dog, Mrs. Robert Tuck, of Hanley's Point, Toronto Bay, owes her life. While walking across a lagoon she was struck through the thin ice. Immediately the dog, who accompanied her, started howling, and attracted the attention of Edith Gorman, a famous sculler, and his son, John, who procured a rope and threw it to Mrs. Tuck, pulling her to safety.

## No Discrimination Shown

Ottawa.—After a comparatively brief discussion, during the course of which Hon. Charles Murphy, post master-general, assured the House of Commons that no discrimination would be shown against the Canadian National Railway in the carriage of mails was being practiced, a resolution approving such discrimination was withdrawn.

## British Army Expedition

London.—The British army estimates for 1923-24 do not disclose a total of 48,000 men, a reduction of 3,000, while the amounts for maintenance will total £24,500,000, against £25,000,000 last year.

## Coarse Grain Pool For Saskatchewan

Regina.—Decision to operate coarse grain pools when 50 per cent. of the four-year average acreage sown to rye and flax and 33 1-3 per cent. of the four-year average acreage sown to oats and barley have been signed up, was reached at a meeting of the Saskatchewan wheat pool directors. This decision was taken on instructions from the recent delegates' meeting authorizing the board to proceed with the organization of coarse grain pools immediately. The board took the view that it was vitally important that the pools should control the major portion of the marketable surplus of coarse grains.

## Did Extensive Exploration Work

Director of Geological Survey of Canada Dies at Ottawa

Ottawa.—Dr. William McNamee, formerly director of geological survey of Canada and director of the Victoria Museum, died in a hospital here after a lingering illness, aged 67.

He did extensive exploration work in all parts of Canada, and several geological reports compiled by him will remain monuments of his efforts. He was a native of Fredericton, N.S., and was employed at the University of New Brunswick.

Dr. McNamee's first geological work was done in his home province of New Brunswick, and later he spent considerable time in exploration work in Northern Ontario and Manitoba.

Extensive explorations were made along the Severn and Albany Rivers, but he also spent a long period making geological explorations along the proposed route of the Hudson Bay Railway.

## Says Danzig Well Armed

Paris Correspondents Report City Arsenal of Rifles and Machine Guns

Paris.—"Danzig is a well-armed town," says the correspondent of Le Journal, who, with the representative of Le Matin, went to that free city to investigate the difficulties between it and Poland. "The Danzish people blow up it will be because Danzig exploded," the correspondent says. "The Danzish people are well armed, and the Danzish people are well armed, and the Danzish people are well armed."

## Alberta Has Endorsed

Game Law Conference

Aim Is To Protect Game On Border

Winnipeg.—Alberta has endorsed the proposed conference of game law officers of the Canadian provinces, and is adding states, J. H. Evans, deputy minister of agriculture, announced. Manitoba proposed the meeting, and Winnipeg has already endorsed it. Ontario has been asked to support the scheme. ## British Army Expedition

London.—The British army estimates for 1923-24 do not disclose a total of 48,000 men, a reduction of 3,000, while the amounts for maintenance will total £24,500,000, against £25,000,000 last year.

## British Navy Estimates For Current Year Are Increased By Large Sum

## Rifle Association Praised By Prince

National Body Has Promoted Close Intercourse With Dominions

London.—The Prince of Wales, giving his address as president of the annual meeting of the National Rifle Association, said that the work of the association has always specially appealed to him, firstly because of the efforts it had made, and was making, to interest boys and young men in marksmanship, and secondly, because from its earliest days the association had promoted close intercourse with the dominions and colonies. The N.R.A. had been directly instrumental in forming similar organizations throughout the empire.

It was a great thing to have an annual contest of attraction like the life-saving meeting, drawing men from all corners of the earth, said the Prince.

## Dr. Sun Yat Sen Is Dead

China's Man of Destiny Pastes Away At Peking

Peking, China.—Dr. Sun Yat Sen, whose long life has been a struggle for the sake of China, died at Peking, China, at the age of 58, after a long illness.

Called "China's man of destiny" by many, Dr. Sun was identified with the revolution of public life in his country. He was first president of the republic created in 1912, and in recent years he had maintained an active role in the southern movement of China against the government of China at Peking.

Dr. Sun was struck with a stroke when he arrived here late in January, as a delegate to a conference, having for its purpose the unification of China.

## Spurious Bank Bills

Counterfeit Imperial Bank Bills Causes Loss to London Bank

Toronto.—The batch of counterfeit \$100 Imperial Bank bills, which arrived in Toronto from a banking concern in London, England, were first cashed by the branch of an English branch bank in Persia. It is disclosed, the notes were sent on to Toronto by an unnamed bank, and reached the Imperial Bank through the clearing house. It was then discovered that they were fakes.

The notes will be sent back to the London bank, which is the loser in the transaction for having accepted them.

## Urges National Unity

Strife Will Not Make Canada Great Says Minister of Justice

Ottawa.—The prime minister of the Liberalism here, Hon. Ernest Lapointe, minister of justice, emphasized the need for national unity, and said the various parts of Canada could be assimilated into a harmonious whole. Not strife, not hatred, nor quarrels would make Canada a great nation. There must be justice and tolerance, willingness to grant to others what one claimed for himself. He said he had no doubt as to the fact that the Liberal party could achieve.

## Protocol Is Not In Best Interests of Canada

Says Premier King

Ottawa.—"We do not consider it in the interest of Canada, of the British Empire or of the League itself, to recommend to parliament adherence to the protocol, and particularly to its provisions for application of economic and military sanctions in practically every future war. Among the grounds for this conclusion is the consideration of the effect of the non-participation of the United States upon attempts to enforce the sanctions and particularly in the case of contiguous countries like Canada."

Premier Mackenzie King, in the House of Commons, announced in the above paragraph the attitude of the Dominion government in regard to the Geneva protocol for the pacific settlement of international disputes.

The paragraph was quoted from a dispatch sent by the premier to Sir Eric Drummond, secretary general of the League of Nations, a few days ago.

## Want Real Peace Guarantees

Only Settlement That Will Satisfy France and Belgium

Paris.—The peace talks in France and Belgium will not come to talk of security and peace will be that the guarantees must be real and that all the European allies must be satisfied. This is the substance of a virtual agreement reached by Paul Hymans, the Belgian foreign minister, and Premier Herriot.

As to German membership in the League of Nations, it will be favored by both France and Belgium on condition that no exceptional favors are demanded by the Reich government.

## Northern Telegraph Upkeep

Government Lines in Northern Canada Are Operated At a Loss

Ottawa.—Half a dozen telegraph offices operated by the Dominion Government in Northern Canada cost, for upkeep, in 14 years, \$9,275 more than they earned. This is shown in a return tabled in the house, which gives details of receipts and expenditures for six offices in the Peace River region. Of these only one, Grande Prairie, came near to paying expenses, which were \$27,500 for the 14-year period, while its revenues totalled \$22,889.

Peace River, in the same period, earned \$21,229 and spent in upkeep, \$67,512; Spirit River earned \$31,275 and cost \$22,226; Dunsmuir earned \$26,989 and cost \$4,745; Beaver Lodge earned \$2,291 and spent \$15,511; and Waterhouse earned \$1,377 and cost \$5,888.

## Would Legislate To Have No Appeals From The Supreme Court

Ottawa.—Legislation to abolish appeals from the judgments of the Supreme Court of Canada, is sought in the House of Commons.

## Appetite Keen And Bowels Relieved

You can rely your meals without fear of upsetting your liver or stomach. If you put your faith in Carter's Little Liver Pills, you will find that the blood is expelled from the bowels and head, and the system is relieved.

## After Every Meal

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans the bowels. Keep it always in the house. It costs little—helps much.

## WORLD HAPPENINGS BRIEFLY TOLD

Twelve revenues derived from the sale of excise stamps during 1921 was \$9,500,711. It was stated in the House of Commons in answer to a question.

Four men, who entered the national home for lepers at Cayville, La., several years ago, have been discharged from the institution as cured.

Dr. Hedy Zalk, president of the assembly of the international optical conference at Geneva, over which he presided, declared that some solid progress had been made.

Dr. William Metcalf, former director of the geological survey of Canada, and director of the Victoria Museum, Ottawa, is dead after a lingering illness. He was 67.

The board of railway commissioners for Canada held 55 public sittings in 1921, at which 225 cases were heard. The board's annual statement issued in the House of Commons shows.

The sum of \$24,225 was advanced under the Empire Settlement Act last year for assisted passage. Hon. J. A. Robb, minister of migration, informed D. P. Kohler, leader House of Commons.

An Christiani Suda, former premier of the Ciskei of South Africa, is vigorously opposing the bill by which the Herat Government would disqualify blacks and Asiatics from the enjoyment of their full rights.

Officials of the Imperial Bank of Canada warn the public that a considerable number of counterfeit notes of the old British American Bank Note Company issued January 1, 1917, for \$100 each, are appearing in circulation.

The Belgian Government has issued orders to prevent the admission into that country of the Irish Republican brother, James J. Connelley, who had been invited by Finnish activists to give a series of lectures there on Ireland and the Finnish nation.

Fined For Missing Train. In Kingston police court a taxi driver was fined \$10 for failing to stop and keep up an engagement. The driver made arrangements to have a passenger at the other station in time to board a train for Montreal, but failed to catch the train. The passenger reported the case to the police.

Mr. Annie E. Perry

British Women Make Money For Hospital

Entertaining at Homes to Raise Money for Improvements

Ten thousand tea parties are to be given in London in celebration of the 10th birthday of the Princess, the daughter of the late King George V.

Cardiff, Wales. The authorities at Cardiff are raising a fund of \$275,000 for improvements. The institution was founded by a woman for women and is run by women.

The parties are to be held during May, June, July, and August. Many of the known houses have promised to entertain at their homes in aid of collecting any amount from a faithful to many women, serving as their guests care to give.

Priest Burned At Stake

Polish Catholic priest, Paul Antoni, has been burned to death in the town of Jozefow, near Lublin, Poland. The authorities allege that his assassins were agents of the Polish secret police.

Work and don't worry if you would be happy. Otherwise worry and don't work.

No woman should think of marrying until she acquires a forgiving disposition.

For Sale—Mina's Lintment

## Over Sixty Ways To Serve Cheese

Beautiful Recipe Book May Be Obtained Free of Cost

That Canada will soon take its place with the nations that are the largest consumers of cheese seems assured considering the steady increase in its consumption in the past few years.

The E. J. McLaughlin Cheese Company, of Montreal, introduced the first Canadian-made cheese, the first Canadian-made cheese, the first Canadian-made cheese.

The company has just issued a beautiful recipe book showing over 60 different ways in which cheese may be served.

Many of the dishes are simple and natural, and the company may be obtained, free, on writing the company, in Montreal, mentioning this paper.

WALKED THE FLOOR FOR HOURS

NERVES WERE SO BAD

Wherever there are people who are troubled with heart and nerve troubles, there is a remedy that will restore the equilibrium of these deranged centers and bring back the shattered nervous system to a new condition of health.

Mrs. W. W. Aulhouse, Woodmont, Ont., writes: "After having a severe attack of heart trouble, I was left for a very weak, run-down condition; my sleep at night was broken up, and I could not sleep at night, and would have to get out of bed and walk the floor for hours."

"After using a box of MILBURN'S HEART AND NERVE PILLS I began to feel much better, and after taking a few more boxes I could even sleep as well as I ever, and have again recommended them to all my friends."

Write to all druggists and dealers, or write to The T. Milburn Co., Limited, Toronto, Ont.

Flame Burns Under Water

Produces Steam Power Capable of Driving Locomotive or Steamship

By a process created by Mr. Oscar Brunner, a young English engineer, submerged flame, burning in direct contact with water, can produce instantly steam power capable of driving a locomotive or a steamship.

The method is especially adapted to chemical solutions for purposes of concentration. With a generator measuring three feet by four feet six inches, Mr. Brunner claims he could generate power sufficient to drive a locomotive from London to Glasgow and back, its speed being so great that it would enable a ship to leave harbor immediately. It is claimed. The flame is produced by a mixture of oil and air, and the water is heated by the water which it burns freely, attaining a heat of four thousand degrees Fahrenheit.

It is not intended to be used in industrial applications, the principle can be applied to the interests of agriculture in the production of sulfuric acid and calcium nitrate, by regulating the amount of air burned in the flame.

World's Greatest Air Power

France Has 1,260 Planes As Against Britain's 675

France is the world's greatest air power, according to Sir Samuel Hoare, British air minister. He said that France has 1,260 planes, while Britain has 675.

France has 1,260 planes, while Britain has 675. France has 1,260 planes, while Britain has 675.

## Transcontinental Connection

Alberta Residents Will Be Able to Communicate by Phone With New York

It will not be long before Alberta people will be able to hold telephone conversation with New York, San Francisco, and other points in the United States. Within the next three months, connection will be established between the Alberta telephone system and the Transcontinental telephone system in the States, by means of three long distance lines which would have left, Singapore and the southern border of the province by way of the mountainous telephone system in Montana. This will provide almost continuous telephone connection for Alberta.

Says War Hovers Over Europe

Ramsey MacDonald Criticizes the Security Pact

War hovers over Europe, according to Ramsay MacDonald. At the security pact to guard the French frontier is carefully into, the former premier believes the horror of 1914-18 will be enacted again on the continent before 1929. The alternative to this, he declares, is peace and security by means of the League of Nations protocol.

The Conservative party has decided to jettison the protocol, and Foreign Minister Austen Chamberlain is expected to begin serious negotiations with Premier Herriot on the security of the pact which would pledge Britain, among others, to protect France from invasion in 1929-31.

"This security pact would mean only one thing," MacDonald, leader of the Labor party, said in an interview. "It would inevitably lead to a new world war."

"It would inevitably lead to a new world war," MacDonald, leader of the Labor party, said in an interview. "It would inevitably lead to a new world war."

"It would inevitably lead to a new world war," MacDonald, leader of the Labor party, said in an interview. "It would inevitably lead to a new world war."

"It would inevitably lead to a new world war," MacDonald, leader of the Labor party, said in an interview. "It would inevitably lead to a new world war."

## No Need For Suspicion

Balfour Replies to Attack in Lords on Singapore Base

The Singapore base scheme was attacked in the House of Lords by Lord Winterton, "on the ground that it would offend Japan and stimulate the war in the East."

Lord Balfour declared that no other country, certainly not the United States, would have left Singapore so fortified so long as had Great Britain, and that there was no foundation for the suggestion of jealousy, or offense on the part of Japan.

He added that the only way a fleet could be made effective, should the necessity arise in the East, was by having a base at Singapore which would be a base for the fleet, and a base for the fleet.

He added that the only way a fleet could be made effective, should the necessity arise in the East, was by having a base at Singapore which would be a base for the fleet, and a base for the fleet.

## THE EMPRESS EXPRESS

Mrs. John Foster, and her  
daughter, Fanny, left this  
morning for Melfort, Sask.

M. A. Blodgett, left on Tues-  
day, on a trip to Calgary.

Mrs. H. Macdonald, of Buf-  
falo, was admitted to the hos-  
pital on April 6th.

Bert Leeper, of Social Plains,  
was in town on Monday.

Mr. and Mrs. Muskyon, of  
Vandary, drove to town, Sun-  
day. The roads were in such  
bad condition that it took them  
five hours to make the 18 mile  
trip.

Mrs. E. H. Fountain is spend-  
ing the holidays with her daugh-  
ter, Myrtle, in Calgary.

Jack Flood returned this  
week from Chase, B.C.

Many are, now-a-days, to be  
seen out on the golf course.

Mrs. W. R. Brodie and Mrs.  
T. Wallace, made a trip to  
Swift Current, Saturday.

Work on the land commenced  
in the south-west country this  
week.

Mr. Rowles expected to com-  
mence seeding operations to-  
day.

Home Talent Play—The Em-  
press Players present, "Adam  
and Eve," April 15th; Empress  
Orchestra will furnish snappy  
music.

Miss Vera Saunders, left this  
morning for Saskatoon, to join  
her mother there.

Feeding operations have com-  
menced in the Cavendish dis-  
trict.

The Cow and Her Calf

The season of the year in  
which a cow freshens will  
determine to some extent the  
amount of milk she will give  
for the lactation period; says Pro-  
f. H. V. Ellington, head of the  
dairy department, State Col-  
lege, Washington.

Cows that calve in the early  
fall produce somewhat heavier  
than cows calving in spring.

In an analysis made by the U.S.  
Department of Agriculture of  
11,130 cows in cow testing as-  
sociations on test for twelve  
months, has shown that cows  
freshened in March, April or  
May had an average milk pro-  
duction of 5,775 lbs; those  
freshening in June, July or  
August 5,885 lbs; those freshen-  
ing in September, October or  
November, 6,591 lbs; and those  
freshening in December, Janu-  
ary or February, 6,338 lbs.

Cows freshening in the spring  
averaged 236 lbs. butter fat;  
those in summer 234 lbs; fall  
267 lbs; and winter, 254 lbs.

The spring freshening cows av-  
eraged 559.38 income over the  
cost of feed; summer, 68.54;

fall, 65.30; and winter, 63.68. In  
other words, the cows that  
freshened in the fall were first  
in production of milk, in pro-  
duction of butter fat, and in  
income over cost of feed.

**CONDITION OF COW**

There is strong evidence that  
a cow in good flesh at the time  
of calving will produce more  
milk during the ensuing lactation  
period than would that same  
cow had she freshened in poor  
condition. The saw is able to  
use up a certain amount of  
stored up flesh to advantage in  
maintaining an especially  
strong milk flow. Good prac-  
tice thus requires that a cow be  
in strong vigorous condition at  
the time of freshening and  
have considerable surplus flesh  
as a reserve to draw on. The  
milk flow, especially in the early  
part of the lactation period, de-  
pends much on this.

A cow not bred, or one that  
fails to become pregnant, will  
give a larger amount of milk  
than one that is carrying a calf.  
Pregnancy inhibits the milk  
flow. The first noticeable de-  
cline in milk due to late condi-  
tion usually comes about the  
fifth month, and later the de-  
cline becomes more marked.

**FREQUENCY OF MILKING**

A cow milked three or four  
times a day gives more milk  
than if milked but twice, es-  
pecially if her flow is large so  
that her udder would be too  
much distended if she went 12  
hours without milking. Under  
ordinary conditions the usual  
practice of two milkings a day  
is sufficient. There are times  
when three milkings are just-  
ified even when cows are not  
pushed under official test con-  
ditions, but where production

of milk for market is the ob-  
ject.

Ordinarily Molesters will not  
produce more than 50 or 60 lbs.  
with a twice daily milking. Jas-  
says or (Guernseys) will not pro-  
duce over 35 or 40 pounds and  
or similar conditions. Cattle  
capable of producing so much,  
will give to their full capacity  
with a third milking, and the  
amount of milk is held to a  
high level for a longer period.  
Experimental data show that  
the third milking adds about  
10 p.c. to the production of  
cows ranging from 40 to 50 lbs.  
and 20 p.c. to those giving ab-  
out 60 lbs. Where there are  
many heavy milking cows and  
other work is not too taxing, a  
third milking may pay well for  
the time it takes.

"We will have a good report to  
present when we reach the He-  
brides," said Rev. Father Alex. Mac-  
Dougall, a member of the Hebrides  
commission of inquiry which in-  
vestigated conditions of Hebrides in  
Canada. The members of the com-  
mission, after visiting Alberta, re-  
ported the new settling perfectly  
satisfied with Canadian conditions.

Among the passengers sailing for  
Europe aboard the Canadian Pacific  
Steamship "Empress of France" on  
October 8th, was Geo. A. Wallan,  
General Passenger Agent, Canadian  
Pacific Railway, Montreal, who will  
represent the company on an ex-  
tensive tour of Europe arranged for  
the American Association of Pas-  
senger Traffic Officers by the trans-  
Atlantic steamship companies and  
the railroads of Great Britain and  
the continent.

EMPRESS, ALBERTA

Mrs. John Foster, and her  
daughter, Fanny, left this  
morning for Melfort, Sask.

M. A. Blodgett, left on Tues-  
day, on a trip to Calgary.

Mrs. H. Macdonald, of Buf-  
falo, was admitted to the hos-  
pital on April 6th.

Bert Leeper, of Social Plains,  
was in town on Monday.

Mr. and Mrs. Muskyon, of  
Vandary, drove to town, Sun-  
day. The roads were in such  
bad condition that it took them  
five hours to make the 18 mile  
trip.

Mrs. E. H. Fountain is spend-  
ing the holidays with her daugh-  
ter, Myrtle, in Calgary.

Jack Flood returned this  
week from Chase, B.C.

Many are, now-a-days, to be  
seen out on the golf course.

Mrs. W. R. Brodie and Mrs.  
T. Wallace, made a trip to  
Swift Current, Saturday.

Work on the land commenced  
in the south-west country this  
week.

Mr. Rowles expected to com-  
mence seeding operations to-  
day.

Home Talent Play—The Em-  
press Players present, "Adam  
and Eve," April 15th; Empress  
Orchestra will furnish snappy  
music.

Miss Vera Saunders, left this  
morning for Saskatoon, to join  
her mother there.

Feeding operations have com-  
menced in the Cavendish dis-  
trict.
